Assessing the efficiency and effectiveness of the Chisinau Municipal Directorate for Child Rights Protection of the Republic of Moldova

Type: individual consultancy (international)
Duration: September - December 2018 (34 working days)
Location: Chisinau municipality, including min. three suburbs

BACKGROUND

The Municipal Directorate for Child Rights Protection (DMPDC) is the authority subordinated to the Chisinau Municipal Council and exercises the functions of territorial guardianship authority in the Chisinau municipality. DMPDC mission is to provide assistance and protection to children at risk and their families, and to children separated from parents. In fulfilling its mandate, DMPDC is responsible, inter alia, for: 1) receiving, registering and referring petitions on violation of children’s rights; 2) providing support to local authorities in the process of identifying, evaluating and assisting children at risk and children separated from their parents; 3) taking the necessary actions to prevent the separation of the child from the family environment or his (re) integration into the family; 4) ensuring the placement of children separated from parents; 5) deciding on the establishment / withdrawal of the status of children temporarily without parental care or left without parental care; 6) establishing the status of adopted child; 7) keeping records of the children who are temporarily without parental care and of the children without parental care who are in placement, receives / systematizes the data regarding the children registered by the local guardianship authorities; 8) determining the training needs of specialists involved in child protection.

The support offered by DMPDC affects 1/3 of Moldova population with the most complex issues (abandonment, addiction, violence, children in street situations, children left behind, etc.). More than 4,000 children from all over the country enter the municipal child protection system on annual basis and are assisted and/or referred to the available services, such as placement centres, small-group homes, etc. The network of institutions and services for vulnerable children is very complex and sophisticated, and there are different and diversified models for financing these services. Yet, the civil society organizations signal several challenges that affect the functionality of the DMPDC.
The regulatory framework is not fully in line with national legislation and international standards, while the decision-making process is constantly delayed due to excessive bureaucracy. It is considered that a greater focus is put on records, files (for instance in foster care) than on improving recruitment, support provided to foster carers and placing the most disadvantaged children. This resulted in losing 11 foster families in 2017 only. Also, the lack of leadership and vision leads to focus on material and external details (renovations, donations of goods, participation in events etc.) rather on the implementation of policies. The high turnover rate (close to 40%) in the DMPDC severely impacts the capacity of the staff, and its efficiency. Thus, a structure of over 550 people is “looking after” more than 4,000 children.

At the beginning of 2018, the Chisinau City Hall (Mayor’s office) has expressed its interest and willingness to strengthen the municipal child protection system and asked the support of the Alliance of NGOs active in the field of Child and Family Social Protection (APSCF) and UNICEF in conducting a comprehensive assessment of the efficiency and effectiveness of the Municipal Directorate for Child Rights Protection. Through its Decision no. 5/10 from 24 July 2018, the Chisinau Municipal Council approved the initiative to sign the Memorandum of Understanding with APSCF and UNICEF for assessing the efficiency and effectiveness of the Municipal Directorate for Child Rights Protection. It is clearly mentioned that access will be granted to all relevant documents (plans, regulations, budgets, narrative and financial reports) to facilitate the assessment process. Also, the Municipal Council committed to publicly present and approve the results of the assessment and the accompanying Roadmap for further action.

PURPOSE OF THE CONSULTANCY

The purpose of this consultancy is to inform the Chisinau City Hall on the opportunities for improving the functionality of the Municipal Directorate for Child Rights Protection, thus creating the necessary knowledge and argumentation basis for further strengthening the municipal child protection system.

OBJECTIVES OF THE CONSULTANCY

The objective of the consultancy is to conduct, by end December 2018, a comprehensive assessment of the efficiency and effectiveness of the Municipal Directorate for Child Rights Protection (DMPDC), with the following specific objectives:

1 Public Association the Alliance of NGOs active in the field of Child and Family Social Protection (APSCF) is a network of more than 60 public associations throughout the Republic of Moldova founded on March 5, 2002. The network acts to create a coherent and functional framework and for the development of actors, implementation mechanisms and practices that ensure the true respect and protection of the child and the family. More details available here http://www.aliantacf.md/
1. Assessing the DMPDC’s positioning in relation to other child rights related structures (e.g. Directorate of Education, Directorate for Social Protection and Health, General Inspectorate of Police, etc.), and its role in the overall child protection system in Chisinau municipality;

2. Providing insight into the mandate and functions performed by DMPDC, their alignment to national policies and priorities, results achieved against the current situation in child protection field in Chisinau municipality;

3. Assessing the extent to which the DMPDC activity has contributed toward improving the situation of vulnerable children in Chisinau;

4. Developing a comprehensive and time bound Roadmap for strengthening the municipal child protection system, including but not limiting to regulations, quality assurance, human resources, funding and service development etc.

The results and recommendations of the assessment will be an important source of information in (re)designing the child protection policies and system in Chisinau. The key findings of the planned assessment will contribute to the formulation of the future work plans with specific activities and needed resources related to child protection in Chisinau. In this regard, the Roadmap should reflect the priority and emergency of activities.

DETAILS OF HOW THE WORK SHOULD BE DELIVERED

The consultancy is expected to be carried out within a 4 months period, starting from September 2018 and ending in December 2018.

To achieve the above-mentioned objectives, the selected Consultant (hereinafter the Consultant) under the guidance of APSCF will:

▪ Develop a detailed assessment methodology and work plan (draft to be submitted to Chisinau City Hall, APSCF and UNICEF for approval, including data collection instruments such as questionnaires and/or guides for interviews and other related documents);

▪ Conduct briefing and de-briefing meetings with APSCF, UNICEF Moldova, Chisinau City Hall, DMPDC administration and other partners;

▪ Perform a desk review of relevant documents and reports;

▪ Conduct field visits to Chisinau (Moldova) and meet with selected partners and stakeholders;
Draft a clear, accessible and usable report on the findings of the assessment, including key findings, lessons learned and recommendations for way forward, and draft the Roadmap for strengthening the child protection system in Chisinau municipality;

Hold consultations with Interim General Mayor of Chisinau, DMPDC administration, APSCF, UNICEF and other partners on the draft assessment, and integrate their feedback into the report and Roadmap;

Prepare the final version of the report with all key findings and recommendations (including prioritization of key strategic recommendations\(^2\)), and the final draft of the Roadmap;

Present and validate the respective report in a multi-stakeholder technical meeting of the public bodies and civil society in view of gathering participants’ feedback and advocating for the implementation of the assessment recommendations.

While conducting the assessment, the Consultant will look into the system’s response to the needs of: children temporary left without parental care, children separated from their parents, children victims of violence, neglect, exploitation and trafficking, children in street situations, children left behind by migrant parents, children in conflict with law and other categories of vulnerable children.

THE SCOPE AND FOCUS OF THE ASSESSMENT should take into consideration the following indicative questions pertaining exclusively to the child protection field in Chisinau municipality:

To what extent the mandate of DMPDC is aligned to national and municipal child protection policies and responds to real needs of vulnerable children?

- What are the ways, quality and the frequency of collecting data and assessing needs in Chisinau municipality?
- Are the DMPDC set objectives and indicators achievable, realistic and time-bound?
- Are the anticipated results achieved? What is the success rate (%) against the originally planned objectives?

\(^2\) Prioritization of strategic recommendations

The following should be clearly stated in the Assessment report (i) the intended use (how the assessment process and results will be used and by whom), and (ii) prioritization of key strategic recommendations.

Requirements for effective assessment recommendations:
1. To ensure programmatic and technical relevance, key stakeholders should be consulted during the development of recommendations.
2. The assessment team should highlight key strategic recommendations, suggesting an appropriate sequencing in the implementation of recommendations whenever possible.
3. Recommendations should be firmly based on evidence and analysis.
4. Recommendations should clearly identify the specific operational units/ offices/ divisions responsible for its implementation.
▪ What is the regulatory framework mechanism in place for DMPDC to respond to new situations and emerging children needs (e.g. children in street situations)?

▪ How flexible the DMPDC is in adapting to the new environments and external factors? How does it respond to the changing external conditions and unexpected (both positive and negative) effects that impact the planned results?

▪ What are the synergies between the activity of DMPDC and other municipal structures in planning and pursuing common objectives/interventions?

To what extent are the existing human resources adequate to perform the DMPDC mandate?

▪ Does the current number of staff satisfy the needs of DMPDC and its deconcentrated structures? What is the occupancy rate?

▪ How relevant and updated are key staff Job description and roles? Are the staffs aware of their responsibilities?

▪ What is the workload of child protection specialists from DMPDC and its deconcentrated structures?

▪ Is the current staff adequately qualified to perform their duties?

▪ What is level of staffing in the municipal child protection services (e.g. foster families, small-group homes, placement centres)?

▪ What are the means and frequency of assessing the training needs of child protection professionals in Chisinau municipality?

▪ What is the role and level of DMPDC’s involvement in developing the capacities of child protection professionals in the municipal child protection system? Are the DMPDC employees capacitated enough to respond to emerging children’ needs?

▪ What are the procedures and indicators for evaluation of staff performance? What are the policies and practices to retain and motivate the staff, as well as the accountability mechanisms for underperforming?

To what extent the institutional, managerial and financial development of DMPDC is ensured?

▪ Does the Municipal Council have a clear view and understanding about the future strengthening of the DMPDC and the whole municipal child protection system? What is the envisaged way forward?

▪ What are the existing alternative and/or complementary mechanisms at municipal level for addressing child rights related issues?
How well have the activities implemented by DMPDC been managed? To what extent are activities implemented as scheduled, how flexible is the management of the DMPDC and its subordinated structures in adapting to changing needs? What are the evaluation mechanisms in place?

Did the management of DMPDC ensure proper co-ordination within and among involved stakeholders to promote synergy and avoid overlaps in the child protection area? How?

What is the annual budget of DMPDC, including its subordinated structures and services? What is the share allocated for administrative costs, salaries, service provision, capacity development, emergency needs, etc? What is the annual cost/child in different services?

What are the means for financial management and ensuring financial efficiency of services? How is the financial accountability ensured and measured? Is the DMPDC budget made public?

Does the DMPDC have a robust budget planning process based on evidences?

To what extent did DMPDC succeed in improving the situation of children in Chisinau municipality?

What are the vulnerable groups of children reached through DMPDC interventions? Does the DMPDC take decisions with due consideration to principles of non-discrimination, best interests of the child, the right to life, survival and development and respect for the views of the child?

How do vulnerable parents and caregivers themselves assess their situation? What did improve for them and their children, and what did not? What is missing? What are their recommendations for the future in this regard?

How are decisions taken/informed by DMPDC and its deconcentrated structures about placing a child in a particular service (e.g. placing children in alternative care, identifying the right form of protection for children victims and street children)? Is it a needs-based or an availability driven process?
