

INSPIRE Strategies to End Violence Against Children Country Factsheet

MOLDOVA

INTRODUCTION

This factsheet is largely based on the inputs and observations of 39 organisations and institutions working in child protection in Republic of Moldova. As the survey was shared through child protection national coalitions, most of the respondents are coalition members (32 organizations).

A number of organisations working in Republic of Moldova that took part to the survey conduct activities that directly relate to one or more of the INSPIRE strategies, applying solutions that are perfectly in line with the INSPIRE approach, although not always acknowledged as such.

Number of organisations and institutions working on INSPIRE strategies in Moldova

Results based on information provided by 39 organisations and institutions which took part to ChildPact's INSPIRE mapping survey

Strategy 1: Implementation and enforcement of laws

19 organisations

Strategy 2: Norms and values (gender, social, community)

24 organisations

Strategy 3: Safe environments

25 organisations

Strategy 4: Parent and care giver support

29 organisations

Strategy 5: Income and economic strengthening

11 organisations

Strategy 6: Response and support services

23 organisations

Strategy 7: Education and life skills

37 organisations

CROSS- CUTTING ASPECTS

The section below points at cross-cutting aspects that are relevant for all INSPIRE strategies. Examples of activities relevant to the different strategies will be outlined separately in the following section.

RELATIONSHIP BETWEEN THE NGO SECTOR AND STATE AUTHORITIES

Most NGOs have implemented INSPIRE related projects / activities with external funding (as the European Union, etc.) and none has received public funding.

As a form of state support for any of INSPIRE related activities, the following were mentioned:

- Collaboration with police, probation authorities, health centres (training, seminars, study visits);
- MoUs signed with Central Public Authorities (Ministry of Education, Culture and Research, Ministry of Health, Labour and Social Protection) and Local Public Authorities (LPAs), Collaboration Agreements with District Councils from the

Country.

- The local public authorities at the district level through the Social Assistance Service took over the support of the foster care after the end of the project.

PREVENTION OF SEXUAL ABUSE AND EXPLOITATION

Out of 39 survey responding organizations, 13 carry out activities directly contributing to the prevention of child sexual abuse and exploitation, while 16 don't carry out activities related to INSPIRE.

"La Strada" International Center carries out: awareness-raising campaigns in the context of Online Safety Day (for example, the campaign to raise awareness about the risks of sending video and sexually content produced by children: sexting (in 2018) and sextortion (in 2019)); informing and raising awareness of children, parents and educators about the risks of sexual abuse and online exploitation through the platform www.siguronline.md; empowerment of teachers and educational institutions with teaching resources and useful tools in order to be able to carry out awareness and information activities for pupils on the risks of sexual abuse and sexual exploitation and online safety within the Program "Intersection - Online Safe Zone".

National Center for Prevention of Child Abuse (NCCAP), for the purpose of preventing the child abuse and exploitation, carries out different awareness campaigns, as for example the Campaign for the Sexual Abuse Prevention "No touching is allowed" (2015) – addressing parents, educators and caregivers of children aged between 0-7 years old. The Campaign "Safe Adolescence" (2017) is dedicated to teenagers aged 12+ years old, which purpose is to raise awareness about the phenomenon of sexual abuse and exploitation of children. NCCAP also have created and is widely promoting through young people the website www.12plus.md which contains resources for parents/caregivers about the challenges of the adolescence and the risky sexual relations (sexualization, sexting, sponsorship and child trafficking). Several structural programmes are being delivered for the development of the resilience of children and adolescents to sexual abuse and exploitation ("Children in Safety", "On the way home", "12PLUS") as well as discussion clubs are being organized for adolescents.

Child Rights Information Center (CRIC) provides trainings for teacher on applying interactive programmes "Dragos' Challenges" (for students aged 7-11 years old) and "Grain of sand" (for students aged 12 to 18). The programmes aim to prevent any form of violence against the child, including abuse and sexual exploitation. Training for professionals from educational field, as well as for parents and children always include the prevention of sexual abuse and sexual exploitation of children. In 2018, CRIC consulted a group of children on how the Republic of Moldova fulfils its obligations under the ratification of the Lanzarote Convention, focusing on the online environment. A report was prepared and sent to the Committee of Lanzarote Parties to the Lanzarote Convention. Also CRIC has provided consultancy in monitoring the work of the local structures of the National Council for the Protection of Children's Rights (Level II); the elaboration and promotion of the Action Plan on online child safety; participation in the work of the Supervisory Committee of the Council of Europe project "Protecting children from sexual exploitation and sexual abuse in the Republic of Moldova".

PRACTICE EXAMPLES

The "Intersection" program implemented by the International Center "La Strada" provides the creation of a community of teachers for the safety of children in the online environment, consisting of representatives of more than 60 educational institutions throughout the Republic of Moldova. With the support of community teachers in February 2019, were carried out activities for more than 2,000 children and adolescents across the country. Dozens of children have been involved in the development of thematic projects and activities on online safety.

The "Diaconia" Social Mission provides services for children and young people in risk situations, such as the maternal centre "In the mother's arms", the "Casa Maria" project and the Social apartment "Towards the Independence".

National Center for Prevention of Child Abuse (NCCAP), provides, since 2003, a specialized service for the assistance of children victims of violence – Centre for the child and family psychological assistance “AMICUL”. Annually, about 400 children victims of different forms of abuse, including the sexual one and their families benefit of psychological, legal and social services as well as of the support during the criminal proceedings. This experience is being capitalized at national level through the creation, in 2019, of the first regional specialized service, addressed to children victims of crimes (Barnahus model).

National Center for Prevention of Child Abuse (NCCAP) is providing the structural program for the development of the resilience of the adolescents (12-18 years old) to abuse and sexual-commercial exploitation, entitled “12PLUS”. Within this program, the adolescents are empowered to recognize the types of risky sexual relationships from the perspective of the mechanisms of coercion/ manipulation used by the aggressors, the decision-making processes and the consequences of these relationships on physical and psycho-emotional health. The program is available in all the districts of the country, through the trainings offered by the NCCAP team to the psychologists working within the Psycho-pedagogical Assistance Service, Youth Friendly Health Centers (Youth Clinic) as well as in vocational schools.

The Mellow Parenting Education Program, implemented by NGO "Partnership for Every Child" represents an early intervention (14 weeks, 1 day per week) to improve the safety, well-being and development of vulnerable children up to 5 years especially those at increased risk of abandonment and separation due to lack of adequate parental care and poorly- developed attachment and parent-child relationships. Mellow Parenting groups target the most vulnerable families, including those with parental-child difficulties, those with mental health problems, or substance abuse, families where the wellbeing of the child is endangered, families where parents face learning difficulties or have a low level of literacy.

INSPIRE STRATEGIES

STRATEGY 1: IMPLEMENTATION AND ENFORCEMENTS OF LAWS

24 of the total number of responding mentioned that they carry out activities related to the implementation and consolidation of the laws banning violent punishment of children by parents, 19 on laws criminalizing the sexual abuse and exploitation of children, 15 on laws banning violent punishment of children by teachers, 17 on laws banning violent punishment of children by other care givers, 9 on laws that prevent alcohol misuse, and 4 on laws limiting youth access to firearms and other weapons.

PRACTICE EXAMPLES

NCCAP and CRIC have offered support to the Central and Local Authorities for the elaboration and implementation of the Government Decision nr. 270 for the approval of the Instructions on the Intersectoral Mechanism of Cooperation for the identification, evaluation, referring, assistance and monitoring of children victims and potential victims of Violence, Neglect, Exploitation and Trafficking (VNET), as well as to the elaboration and implementation of the intervention procedures for the medical workers, teachers, policemen in child violence, neglect, exploitation and trafficking cases. With the support of NCCAP as well, intersectoral statistical data about VNET cases are being collected and compiled.

In the context of the initiatives of the General Prosecutor's Office to modify the legal framework regarding trafficking of human beings and trafficking of children, the International Center "La Strada" contributed with suggestions and amendments to the legal framework regarding more crimes connected to child trafficking (including art. 175/1 of the Criminal Code, art. 208/1 of the Criminal Code, art. 208/2 of the Criminal Code) and also recommendations regarding the process of hearing minors under special conditions (art. 110/1 of the Criminal Procedure Code).

For the development of the Integrated Assistance Service for children victims /witnesses of crimes (Barnahus-type) NCCAP in partnership with the Ministry of Health, Labor and Social Protection (MoHLSP) have developed the Government Decision draft for the approval of the Regulation and Minimal Quality Standards for this type of services. There has also been elaborated the costing and financing mechanism of the Barnahus-type service and the necessary sources of funding for medium term have been included in the Budgetary Framework project.

In order to ensure a really friendly justice system for children victims/witnesses of crimes, NCCAP in partnership with Ministry of Justice have elaborated the draft of Law of the Interviewer and of the Quality Standards for the organization of child hearing rooms.

The International Center "La Strada" has elaborated the report on "The status quo of the implementation of the Lanzarote Convention by the Republic of Moldova". The findings of the report served as a basis for the proposals formulated in drafting the National Action Plan on Human Rights 2017-2021 and support for discussions within the National Dialogue on Violence against Children organized by UNICEF Moldova in June 2018.

CCF Moldova conducts seminars with local authorities and parents of children in risk situations about the consequences of violence and the responsibility that occurs if these provisions are not respected.

STRATEGY 2: NORMS AND VALUES (GENDER, SOCIAL, COMMUNITY)

Respondents mentioned that they have experience in carrying out activities related to Strategy no.2: 23 organizations implement community mobilization programs, 14 have experience in changing adherence to restrictive and harmful gender norms, 12 experience in changing adherence to restrictive and harmful social norms while 4 support the Bystander interventions¹.

PRACTICE EXAMPLES

Starting with 2016, the optional discipline "Harmonious Family Relations" is implemented in the educational institutions of the Republic of Moldova. The curriculum, the information support, all the resources for pupils and teachers, as well as the teacher training and monitoring activities were carried out by the International Center "La Strada". This course aims to inform and guide young people in the formation of non-violent life skills for a harmonious and sustainable family;

The Gender Equality Platform conducts information and awareness rising activities on the roles of gender stereotypes in girls' and boys' lives, and how they affect decisions made by girls and boys based on gender stereotypes. These activities are developed in various methodologies: talk shows, public lessons, dialogue with students and young people and others (Participating in partnership with the National Coalition "Life Without Violence in Families" at several talk shows where the issue of violence and how it can be prevented is discussed); also they organize seminars with children and young people on the prevention of domestic violence;

NCCAP and CRIC, in partnership with the Ministry of Education, Culture and Research (MoECR) have updated the curriculum of the subject "Personal Development" for primary grades with a number of skills/content aimed at recognizing the signs of

¹ Bystander intervention is a model of sexual violence prevention based on evidence that community norms play a significant role in the perpetration of violence.

abuse, including sexual abuse, identifying and enforcing safety rules in potentially dangerous situations at or near the school, in the park, at the grocery store, on the street, at home or near home.

Thanks to the collaboration between NCCAP and MoHLSP, the Standards for the early education and the Curriculum for the early education have been approved and indicators aimed at protecting children from sexual abuse were included in these documents.

CCF Moldova acts for fighting against restrictive social norms as: the exclusion of the age criteria when establishing the guardianship; the participation to the debates for the amendment of the Law nr. 140 about the special protection of children in difficulty and risk situations.

"Health for Young People" Association implements the project "Healthy Generation – extension of the Youth-Friendly Health Services". The Youth Friendly Healthy provide adolescents and young adults with access to qualified medical assistance and youth-sensitive counselling on healthy lifestyle, reproductive health and child care.

STRATEGY 3: SAFE ENVIRONMENTS

All 39 survey respondents mentioned that they are pursuing activities related to Strategy 3, of which 29 focus on interrupting the spread of violence, 12 on improving the built environment (interior planning), and 7 on reducing violence by addressing "hotspots".

PRACTICE EXAMPLES

CCF Moldova, organize various meetings and round tables on the prevention of violence, neglect and abuse of children in children's day care services; CCF Moldova contributes to the prevention of violence in families, schools, kindergartens and the community through mediation activities, psychological and legal counselling, participation in meetings within the Commission for the protection of the child in difficulty and multidisciplinary commissions. In case of detecting of an outbreak of violence, CCF Moldova team is collaborating with the competent authorities by referring the case to the legal bodies.

NGO "Demos" and NGO "Concordia. Proiecte Sociale" provide the social service "Assisted social housing" addressed to young people leaving the protection system and young people from socially vulnerable groups. The service provides the beneficiaries with secure premises for temporary accommodation, during the transition to independent community life².

NCCAP has been providing support to alternative care services in the development of the child protection policy. NCCAP has also been delivering trainings for professionals from the child protection system about the identification, referring, assistance and monitoring of the cases of child violence, neglect, exploitation and trafficking.

Caritas Moldova has been organizing regular trainings with staff to prevent any abuse of beneficiaries from projects implemented by the organization.

CRIC has been providing support to the educational institutions for the application of the Quality Standards for the primary and secondary general education institutions from the perspective of a child-friendly school; CRIC is also empowering the professionals from the educational system to better protect children against all forms of violence; CRIC is supporting the educational institutions in the elaboration process of the child protection policies by elaborating, at the same time, supporting materials for professionals in order to prevent the violence within the educational institutions.

STRATEGY 4: PARENT AND CARE GIVER SUPPORT

For Strategy no. 4, 29 of responding organizations mentioned that they provide parenting training and support programmes for parents, 11 provide parenting training and support programmes for other care givers, 17 mention the support provided through home visits, 14 deliver support in groups in community and 9 provide support through comprehensive programs.

PRACTICE EXAMPLES

The majority of organizations practice various forms of training (training for employees, volunteers, trainees and visitors, or workshops with parents, courses for future adoptive parents) and implement codes of conduct and other commitments to comply with child protection policies;

Parental information and awareness raising activities on the online environment by encouraging a positive approach to children's online safety education are carried out by Center "La Strada";

NCCAP is delivering support programmes for parents and caregivers of preschool children ("Without hands") and of adolescents ("Careful parents"). The purpose of the programmes is to develop the potential of parents and caregivers in terms of practical knowledge and skills on violence-free methods of education, discussion management on sensitive issues;

CRIC is elaborating materials and providing parental skills development activities, by promoting the use of violence-free methods of education. CRIC is elaborating supporting materials for professionals from the education system, working with children left behind, whose parents are working abroad, for the parents who are abroad as well as for the parents/caregivers left in the country.

Specific parental education programmes for the parents of children with disabilities are implemented by NGO "Child, Women - Protection and Support".

CCF Moldova ensures regular monitoring of deinstitutionalized children and children in risk of institutionalization but maintained in the family, through regular visits at home, visits and methodological support for schools and kindergarten teachers. The organization also ensures support for families for accessing social, educational and medical services and benefits; legal, medical and psychological counselling and the development of the family support network in the community. Counselling to develop parental skills is also supported by the development of individual support and monitoring plans.

Technical Assistance to Local Public Authorities in the development of alternative care services and training of professional parent and parent-educators is provided by CCF Moldova.

STRATEGY 5: INCOME AND ECONOMIC STRENGTHENING

8 of responding organization mentioned that they carry out activities related to strategy no. 5 through microfinance combined with gender norm training, 6 provide cash transfers and 2 provide group saving and loans combined with gender equity training.

PRACTICE EXAMPLES

Beneficiaries (young people, disadvantaged families) are trained and consulted for launching and managing small businesses. More than 15 types of entrepreneurial activities are developed by NGO "Demos" through the financial support of the association (financing of professional courses, acquisition and delivery of goods for launching the business).

IM Swedish Development Partner provides support for small economic activities of the families of children with disabilities, or young people with disabilities (such as greenhouses, livestock breeding, etc.).

Economic empowerment training followed by microfinance support is provided by NGO "Generatia mea" and NGO "Asociația Psihologilor Tighina". The trainings include the topic of gender norms and the prevention of trafficking in human beings

STRATEGY 6: RESPONSE AND SUPPORT SERVICES

Out of the 39 respondents, the majority indicated that they are carrying out activities related to strategy no. 6, namely: 23 provide foster care interventions involving social welfare service, 14 provide counselling and therapeutic approaches, 11 provide screening and intervention, while only 4 offer treatment programmes for juvenile offenders in the criminal justice system.

PRACTICE EXAMPLES

The "Safe on line" service offered by Center "La Strada" is the first online interactive information safety platform for children, which, in addition to providing information and awareness-raising to children, parents and educators, has the option of chatting for real-time online counselling, but also incorporates a friendly reporting mechanism for online abuse cases.

Center "La Strada" also provides child protection and assistance services for the victim or witnesses of sexual abuse and exploitation throughout the criminal proceedings. The child care team, gathering a lawyer and several psychologists, provides child care services in the criminal process, psychological assistance, including the elaboration of psychological assessment reports at the request of law enforcement bodies and hearing the child under special conditions. The organization has various specialists offering legal, social, psychological and spiritual counselling.

NCCAP is offering specialized assistance to children victims of violence within the Centre for the child and family psychological assistance "AMICUL". The team of the service (psychologists, social assistants, legal adviser, interviewers) is offering psychological assistance to children and their parents/caregivers, support in the criminal procedures, including the hearing of children victims of family violence and of sexual crimes, as well as the elaboration of the psychological evaluation reports for the legal bodies and offering assistance in ensuring a safe environment for children in imminent danger.

In the context of juvenile delinquency programmes, the Regina Pacis Foundation carries out, in Penitentiary no. 10 Goian, Vocational Trainings for detained children. These Vocational Trainings and classrooms improvement have been carried out since 2013 (more details can be found here). Also, the Foundation collaborates with state institutions responsible for juvenile delinquency, provides trainings, discussions with children within classes and the support of municipal police.

STRATEGY 7: EDUCATION AND LIFE SKILLS

28 of the responding organizations mentioned that they are providing life and social skills training, 21 contribute to increasing the number of children in pre-school, primary and secondary education, 17 - contribute to establish a safe and enabling school environment, 14 contribute to improve children's knowledge about sexual abuse and how to protect themselves against it, and 11 provide adolescent intimate partner violence prevention programmes.

PRACTICE EXAMPLES

NCCAP is offering structural programmes for the development of the resilience to the potential risky situations, especially of abuse and sexual exploitation. "Children in Safety" is addressed to pre-school children and is teaching them about their body, safety rules and how to identify the persons of trust. "On the way home" is dedicated to children aged between 6 and 12 years old, being focused on the skills development in identifying and preventing the potentially dangerous situations. This program is available in schools and libraries. "12Plus" contributes to the development of the mechanisms of resilience against the abuse/sexual exploitation among adolescents, being available within the Psycho-pedagogical assistance Services and Youth Clinics all over the country.

CRIC is offering support to the teaching personnel for the implementation of the curriculum of the "Personal Development" and "Social Education", both of them focused on the social and civil skills development in children. CRIC is empowering children to participate in decision making processes in questions related to them, to monitor the respect of their rights, including the right to a qualitative education, which can be ensured only in a safe environment, as well as of the right to be protected against all forms of violence.

Equal to Equality Teachers Program has been implemented by the Center "La Strada", by which thousands of children were educated about online safety in educational institutions.

Gender Equality Platform has been developing the "Glossary on Gender Equality" guide that was distributed to the participants of the 7 Regional Forums "Preventing Family and School Violence - the multidisciplinary approach of the phenomenon" organized in following districts: Cantemir, Leova, Ialoveni, Anenii-Noi, Ciadir-Lunga, Hincesti, Cimislia.

CCF Moldova contributes to enrolling children in pre-school and school education by working directly with parents, educational institutions and Local Public Authorities, providing counselling and legal and informational support, methodological support for schools and kindergartens for the inclusion of children with learning and hearing disabilities.

CCF Moldova is regularly providing training courses for parents for the social and life skills development for a better child protection. Within some training courses for adolescents, there are topics related to violence prevention between partners and sexual education;

Training programmes for disadvantaged young people with the aim of developing social and life skills, professional orientation, socialization are provided by NGO "Demos";

NGO "Concordia. Proiecte sociale" is organizing information sessions for children about the child protection policy where the abuse forms and the means of defence are presented.

NGO "Child, Women - Protection and Support" is providing independent life programmes for young people with disabilities.

NGO "Prietenii Copiilor" set-up toy libraries (ludoteca) in educational institutions to ensure safe spaces for leisure, where information activities for children and young people are also organized.

ABOUT THIS REPORT

This factsheet is produced by ChildPact and Alliance of Active NGOs in the field of Child and Family Social Protection (APSCF) in the frame of two regional projects funded by Oak Foundation and INSPIRE Fund. The two projects include complementing initiatives to map the activities that are currently being conducted in line with the INSPIRE framework in the extended Black Sea Region with the objective of better understanding the current efforts and improving synergies between existing actors working on the implementation of INSPIRE strategies.

The data was collected between April and July 2019. The Mapping Survey is available in English at [this link](#).

7 STRATEGIES TO END VIOLENCE AGAINST CHILDREN

We know what to do, how to do it and how to measure our impact.

#INSPIRE

- implementation and enforcement of laws
- norms and values
- safe environments
- parent and caregiver support
- income and economic strengthening
- response and support services
- education and life skills

We would like to thank all the organisations who have participated to this important mapping exercise during the last months.

Redacted by/Edited by APSCF Secretariat team
